

Tentative Master Schedule for Class of 2019

To be updated throughout year. This version reflects information as of 08/10/2017.

Attendance in all class lectures and advising group meetings is mandatory. In addition, students must attend one workshop each on (1) data sources (please choose most appropriate topic area), (2) writing, (3) data management, and (4) data analysis. Students that excelled in econometrics might be exempt from the data management and data analysis workshops. See below for details.
